MAN CAVES & SHE SHEDS

Manufactured for Cyclonic Areas

- Engineered plans ready for “no fuss” council submission
- Complete slab or pier detail
- Complete specification sheet
- Complete and accurate materials list
- Complete and simple instruction manual
- Full backup service from our competent friendly team
- You can erect it yourself or we can do it all for you
- Efficient and friendly service from our awesome team
- We will delivery anywhere!
- Colour coded screws for roof and walls for a great finish
- Exclusive water and vermin resistant concrete slab - standard with no additional charge
- Add windows, personal access doors, roller doors, whirly birds, insulation, laserlite, remote control motors to your roller doors, divisional walls, skillion and gable extensions
- We supply all member sizes and building
- Weight at your request so you can pick the best shed for you.

Our carports and sheds are the easiest to erect on the market - half the work is done for you!

"Having used your services again, we are very pleased with the quality and construction of our double door garage and double carport. Again, we found the tradesmen obliging in answering any queries we had and their professional attitude to their tasks made it a joy to have them on our property." Charles Waldoock - Millaa Millaa
